Professional Summary

Final-year engineering student targeting an Associate Consultant role in Business Consulting and Performance Improvement (TMT), with hands-on experience in business analysis, financial tracking, research, data analytics and cross-functional execution. Managed an INR 2L+ budget across 8+ initiatives and built analytics solutions covering 500K+ customer reviews and 56K+ transactions. Skilled in Excel, PowerPoint, SQL, Python, root-cause analysis, KPI reporting, structured problem-solving and developing clear, decision-ready recommendations.

Education

Thapar Institute of Engineering & Technology, Patiala *May 2027*

Bachelor of Engineering, Electronics & Communication Engineering (final year)

Skills

Consulting & Research: Business analysis, primary and secondary research, problem structuring, root-cause analysis, requirement gathering, sector and trend analysis, business-case fundamentals, process improvement
Analytics & Modelling: Advanced Excel, financial analysis, Excel modelling, SQL, Python (pandas, NumPy), Power BI, DAX, data validation, KPI analysis, scenario and variance analysis
Supply Chain & Operations: Procurement coordination, workflow assessment, operational performance, risk and option evaluation, supply-chain fundamentals, documentation standardization
Communication & Delivery: PowerPoint, presentation development, stakeholder communication, facilitation, relationship-building, executive reporting, collaboration, adaptability, timeline management

Leadership & Business Experience

Finance Secretary — Institution's Innovation Council (IIC), Thapar Institute *2025 – 2026*

- Managed an INR 2L+ budget across 8+ institutional initiatives, owning resource allocation, expense tracking, reconciliation and financial reporting through structured Excel workflows.
- Coordinated faculty, student teams and external vendors to gather requirements, align priorities, support procurement and resolve execution issues within defined timelines.
- Prepared financial summaries and standardized supporting records for faculty review, improving data traceability, documentation quality and visibility into initiative performance.

Projects

RetailPulse — Business Performance & Profitability Analysis *Python, SQL, Power BI, DAX*

- Cleaned and modelled 56K+ order-line records into an analysis-ready star schema, establishing a reliable data foundation for repeatable performance analysis.
- Developed KPI reporting for revenue, gross profit, margin, orders, units and customers across time, categories, cities and sales channels.
- Reconciled outputs across SQL, Python and Power BI and performed root-cause analysis of discounting and category profitability to identify performance drivers and recommend margin improvements.

ProductPulse — Customer Research & Insight Platform *Live Demo*

- Built and deployed an analytics platform that converts large-scale customer feedback into structured findings for product and business decision-making.
- Designed research workflows over 500K+ reviews to identify customer sentiment, recurring pain points, feature requests, positive drivers and emerging trends.
- Integrated multiple AI/LLM providers with fallback handling and created CSV ingestion, insight visualisation and downloadable reports for consistent, decision-ready work products.

Venture Autopsy — AI Venture Validation Platform *Product Design, AI-Assisted Development, Market Analysis*

- Designed and launched an AI-powered platform that evaluates business ideas through market analysis, risk mapping, financial modelling and evidence-based validation.
- Created Milo, a context-aware venture companion that explains findings, highlights critical assumptions and recommends practical experiments. **Live Demo**

Additional Experience

Author (Pen Name: Sterling Moriz) — Amazon Kindle *Self-published*

- Delivered 5+ digital books, including *5 Proven Secrets to Crush Procrastination* and *Master AI Productivity* (co-authored with Alex Ross), independently managing research, synthesis, writing, editing and publishing.

Achievements

- Innovation Ambassador (Level 2 — Advanced), Institution's Innovation Council, Ministry of Education; Participant, Axxelrate 2026.
- Round 2 selection, ISRO Robotics Challenge — University (IRoC-U 2025), Team AGNIV.
